

**ABC MEDICAL CENTER
CHART AUDIT
WORK PRODUCT**

April 1, 2012

Fifty Evaluation and Management office visits were reviewed for documentation requirements. Of the **50** reviewed:

24	encounters were over coded and did not meet criteria for code assignment
14	were under coded
12	were coded correctly and met the documentation criteria for the code(s) billed

The following is a breakdown of the **fifty** encounters by **third party payer**:
ABC Medical Center consists of 75 – 80 % Medicare and Medicaid patients.

38	Medicare/Medicaid
9	Commercial Payors
3	Self-Pay

Of the **38 Medicare/Medicaid** encounters reviewed, **19** encounters were over coded, **10** encounters were under coded, and **9** encounters were coded correctly and met the documentation criteria for the code(s) billed.

There were **9 Commercial Payor** encounters reviewed. Of the **9** encounters reviewed, **5** encounters were over coded, **2** encounters were under coded, and **2** were coded correctly and met the documentation criteria for the code(s) billed.

There were **3 Self-Pay** encounters reviewed. Of the **3** encounters reviewed, **2** encounters were under coded and **1** encounter was coded correctly and met the documentation criteria for the code(s) billed.
